

District 3

School Construction and Maintenance

Projects 2021-22

A project at **Acceleration East** to re-roof the main building and replace rooftop heating, ventilation and air conditioning units was completed in July 2021.

At **Blankner School**, the track is set to be replaced by the end of December 2021. Interior painting campus-wide is scheduled for the first half of 2022. The fire alarm, intercom, closed-captioning TV and intrusion protection system is being replaced in late 2022 and early 2023.

At **Boone High**, replacements of the gym and cafeteria were completed in 2020. Acoustical treatments for Building 800 and stucco repairs and painting of selected exteriors were completed in August 2021. The softball field was regraded in August 2020 and baseball field lighting was completed in 2020. Repairs to a concrete walkway and stairs are scheduled to be complete by February 2022. A chiller is set to be replaced by July 2022.

At **Conway Elementary**, replacement of air conditioning chillers was completed in December 2020. An electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

At **Conway Middle**, replacement of chilled water pumps was completed June 2021.

At **Cypress Creek High**, freestanding announcer booths will be installed at the softball and baseball fields by September 2022. Replacement fuel tanks will be in place by February 2022. Portable Pre-K classrooms will be in place by July 2022. New softball and baseball field lighting were completed in December 2020.

At **Endeavor Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

At the **Fort Gatlin** administrative building, a lift station will be relocated. The concrete pad will be removed and replaced with a "natural lakefront environment" including a retention pond to catch runoff. The project should be complete by the end of January 2022.

At **Freedom High**, a restroom for the early childhood program was completed in March of 2021. A project to improve the school's heating, ventilation and air conditioning system and controls was completed in December 2020. New baseball and softball lighting were completed in 2020. Installation of the new rubberized track and improved field events areas is ongoing and will be completed in 2021. Replacement fuel tanks will be in place by February 2022. The fire alarm, intercom, closed-captioning TV and intrusion protection system is being replaced in late 2022 and early 2023.

At **Freedom Middle**, an upgrade of the stage lighting was completed in February 2021. The fire alarm, intercom, closed-captioning TV and intrusion protection system is being replaced in late 2022 and early 2023.

At **Hunter's Creek Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022. A classroom addition will be added to campus beginning in 2023.

At **John Young Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

Lake Buena Vista High is a new high school that opened in August 2021 to provide relief to Dr. Phillips and Freedom high schools. The school includes classrooms, labs, administration, cafeteria, auditorium, and a media center. The school also has the latest classroom technology, a culinary lab, athletics amenities and separate bus and car loops.

At **Lake George Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in December 2021.

At **Lancaster Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

At **McCoy Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in February 2022. The fire alarm, intercom, closed-captioning TV and intrusion protection system is being replaced in late 2022 and early 2023.

At **Meadow Woods Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

A comprehensive renovation of **Meadow Woods Middle** was completed in 2021 and included remodeling/refurbishment of buildings 1 through 8.

A capital renewal project at **Oakshire Elementary** included a new heating, ventilation and air conditioning system, electrical and plumbing improvements, new outside drinking fountains, new canopy and courtyard lighting, new gutters and downspouts as well as new fire alarm, intercom and intrusion detection systems. The project was completed in August 2020. In addition, a tot lot playground shade structure was installed in August 2020. An electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

At **Shenandoah Elementary**, exterior painting campus-wide was completed in July 2021. Replacement of air conditioning chillers was also completed in July 2021. An electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

Site 30-E-SE-3 is an elementary school under construction in the Meadow Woods/Boggy Creek area to provide relief for Wetherbee and Wyndham Lakes elementary schools in August 2022. This project includes construction of a two-story prototype elementary school building with classrooms, administration, art, music, kitchen, cafeteria/multi-purpose room, media center, bus and car loops and the latest classroom technology.

At **South Creek Middle**, the fire alarm, intercom, closed-captioning TV and intrusion protection system is being replaced in late 2022 and early 2023.

At **Southwood Elementary**, exterior painting campus-wide was completed in September 2021. An electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

Vista Pointe Elementary, a new relief school, opened in the southeast Orlando/Lee Vista area for the 2020-21 school year.

At **Waterbridge Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022. The fire alarm, intercom, closed-captioning TV and intrusion protection system is being replaced in late 2022 and early 2023. A tot lot playground shade structure was installed in July 2020.

At **Wetherbee Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

At **Winegard Elementary**, a new main campus building opened for the 2020-21 school year. An electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022.

At **Wyndham Lakes Elementary**, an electronic marquee sign will replace a changeable letter marquee. The new marquee will be connected to the school via fiber optics in a project concluding in January 2022. The fire alarm, intercom, closed-captioning TV and intrusion protection system is being replaced in late 2022 and early 2023. A tot lot playground shade structure was installed in July 2020.
