

Skyward Schedules and LaunchEd Access

The District is allowing access to schedules on Skyward for parent and student viewing beginning Friday, August 7th. Parents can access their Skyward account from their Launchpad. If you need assistance with Launchpad and Skyward account setup, please visit the Glenridge website (<https://glenridgems.ocps.net/>) under the 'Parent' tab for directions on the Launchpad and Skyward setup process.

All students are participating in LaunchEd@Home starting August 10th. Students will participate in their daily schedule, period by period by accessing their Canvas classes. Canvas can be accessed from the student Launchpad.

Accessing LaunchPad

1. Go to launchpad.ocps.net ([Links to an external site.](#)) in the Chrome Browser
2. Sign in with your OCPS credentials:
 - **Secondary Students:** Student Number and Personal OCPS Password

After signing into LaunchPad, Canvas should be the second stop for all students in the LaunchED@Home classroom.

Accessing Canvas

1. Go to the OCPS Launchpad at <https://launchpad.classlink.com/ocps> ([Links to an external site](#))
2. Enter your OCPS Username and Password
3. From the Launchpad desktop, click the Canvas icon to be automatically logged in to Canvas

Within each class, students will be able to access their teacher's conferencing link in order to view the live instruction happening in the classroom. There will be a conference tab on the left menu within each class.

Students should expect to be logged into the video conference for each class at the same time as the bell schedule they would follow if attending class in person, period by period. Teachers will record attendance based on who is present on the video conference; students must be visible via their digital device webcam. We will continue to post additional information and resources for help with LaunchEd@Home on our Glenridge website and social media.
