Please feel free to call or text me if you have any questions. Thanks you for being a Tangelo Tiger.

Hello, my name is Mrs. Shaikh

I am the Exceptional Student Education support facilitator here at Tangelo Park Elementary. I work with kdg-5th grade students who are in my program with an IEP or individual education plan. My students have reading and math goals on their IEPs based on their academic needs. They receive services for reading and math or sometimes social skills. Their goals are based on their academic needs and any other academic gaps they may have. We work in small groups and at times one-on-one if needed.

**My students are always
required to do their best and
follow school and class rules.**

Once a Tiger always a tiger!!
